

This 52-page book is the personal account of an emerging artist as she explores the confluence between learning, healing and creating.

It is based on the art show, *Awakening Wisdom*, offered in 2006 by Carey Elizabeth Smith.

Printed in full color on high quality paper, the book features reproductions of all original works from the show. In addition, each image is accompanied by Carey's writings on the creative process, a companion theme, and selected poetry that evokes the spirit of the work.
