

FINE ART REPRODUCTIONS of ORIGINAL WORKS by Carey Elizabeth Smith

These are available in the form of *giclée prints*, in the sizes listed by each image. Giclée prints begin with high resolution digital scans of the original artwork, and are printed with archival quality inks onto fine art paper or canvas. This process provides better color accuracy than other means of reproduction.

All prints are issued in a numbered, limited edition, and are accompanied by a certificate of authenticity. Sizes listed are width x height, and are rounded to the nearest 1/4". The cost of prints is the same, whether on fine art paper or canvas. Prices listed are good until December 31, 2007, and do not include shipping and handling; please see the attached Order Form. Upon request, the artist will consider special print sizing, or prints of works not listed here.
